

Iwaki Vision 100th Edition!

We have finally reached the 100th volume of Iwaki Vision. The magazine was originally created by Chris Burkimsher, Iwaki's first Coordinator of International Relations, over 27 years ago back in the winter of 1990. Following him, the editing of the magazine has been passed down to 11 other CIRs over the years. Each editor has provided their own distinct design and format, helping Iwaki Vision evolve from its early days into the colourful photo-filled magazine we have today. To celebrate this milestone edition of Iwaki Vision, several of the previous editors have provided comments reflecting on their time at the helm editing Iwaki's International English Bulletin (refer to supplementary sheet). We have also included all the front page covers of Iwaki Vision from 1-99 on pages 4-5 of this edition.
