

Table with columns for sampling date, time, weather, temperature, water temperature, and various chemical and physical parameters. The table is organized into sections for general water quality, water management target items, and discussion items. It includes data for parameters like bacteria, heavy metals, nutrients, and physical properties over a period from April 2021 to March 2022.

Table with columns for sampling date, time, weather, temperature, water temperature, and various chemical and physical parameters. It includes sub-sections for 'Water Quality Standards' (水質基準項目) and 'Water Quality Management Target Setting Items' (水質管理目標設定項目). The table contains multiple rows of data for each parameter across different dates and times.

Table with columns for sampling date, parameters (e.g., temperature, bacteria, heavy metals, nutrients), and results. The table is organized into sections: 水質基準項目 (Water Quality Standards Items), 水質管理目標設定項目 (Water Quality Management Target Setting Items), and 要検討項目・その他の項目 (Items to be Examined/Other Items).

Table with columns for sampling date, standard value, target value, unit, and measurement dates from 2021/4/20 to 2022/3/8. Rows include general bacteria, heavy metals, pesticides, and water quality management items. Includes sub-sections for '水質基準項目' (Water Quality Standard Items) and '水質管理目標設定項目' (Water Quality Management Target Setting Items).
